

Please keep KLOVE on the radio. I love listening to it and it like the fact that I can turn to it at anytime. There is nothing negative or offensive in their programming. If KLOVE was only played certain times of the day, people who need to hear encouragaing words may miss out. KLOVE benefits everyone. It does not shove God onto anyone. Anyone can listen to it and lives have been changed by it. People are encouraged and I feel this is way more beneficial to the public interest than Top 40 music which deals with sex, profanity and violence. Children need to listen to postive examples not negative ones. KLOVE is one way to help children understand how to act -with love. PLEASE keep KLOVE!
